FOR IMMEDIATE RELEASE

To follow the current recommendations in response to COVID-19 the Town of East Troy Police Department is taking steps to reduce face-to-face contact for non-priority calls for service. Effective immediately our officers will make phone contact with citizens for non-emergency and non-priority calls such as civil disputes, lost property, animal complaints, thefts etc. Officers will respond in person to these types of calls if necessary or if more detailed follow up is required.

This does not change our response for emergency or priority calls for service. Officers will still respond in person to emergency and priority calls.

This change is an effort to reduce the possibility of exposure to our citizens and to our officers. We are also taking additional precautions to ensure our citizens and officers reduce the risk of infection by supplying our officers with personal protection equipment and disinfectant supplies.

Now is the time for all of us to work together as the strong community that we are and always have been. Take that extra step to be a great neighbor, friend, and family member!
